Dear Customers,

The Federal Government's 32 cents per litre (cpl) reduction to the fuel excise will expire on 30 June 2026. However, the Federal Government has announced that a 16 cpl reduction in fuel excise will continue, on a temporary basis, from 1 July 2026 to 2 August 2026.

This means that over the coming days and weeks retail fuel prices are likely to rise as they begin to reflect the partial restoration of fuel excise and increase in the wholesale cost of fuel.

We know that is not welcome news for customers but please rest assured that the increase in excise does not alter 7 Eleven's commitment to providing quality fuel to customers at competitive prices.

Our priority is to maintain continuity of service for customers across the local neighbourhoods that we serve.

Thank you for your understanding and support.

**The 7-Eleven Team**
